Collier County's Electronic Village

Website: <http://free.naplesplus.us> Collier County's Electronic Village. The Collier County Community Network. Naplesplus is a service, provided by NeighborHelp Referrals of Naples, FL for the purposes of helping collect together, in one place, Naples news, listings of Naples area businesses, provide information on up and coming events, show videos that originated around this area, collect together jobs for the Collier County FL area in one place, and the items for sale.

This is no small feat and no small task.

On naplesplus, one can also have one's own personal blog, post a review or advertise their own website (and, by extension, their business), post pictures, flash videos, mp3 songs (there is a built-in MP3 player on this site for uploaded songs), post images and much more.

<http://free.naplesplus.us> also ranks VERY well on Google, with a PageRank of 3 which may be small in comparison to <http://ebay.com> <http://amazon.com> and the like, but for a locally focused site, it does pretty well.

Any comments?
