

Add OpenSocial Applications to your Website using Google Friend Connect.

[Register with us in one easy step!](#)

Simple, Step by Step Instructions: The power that Facebook, Myspace, Hi5, Orkut and others enjoy, can be yours with Google Friend Connect and Custom Gadget!

Adding Opensocial applications to your website is so easy - thanks to a post here:
<http://pixelsebi.com/2008-12-05/google-friend-connect-and-opensocial-gadgets/>

- 1) Go to: http://opensocialdirectory.org/wiki/Main_Page
- 2) Find the application you want.
- 3) Click "Code".
- 4) Copy the URL of the code that shows up in your browser (it'll have the extension .XML)
- 5) Go to <http://google.com/friendconnect> and click on "Social Gadgets"
- 6) Click on "Setup Custom Gadget"
- 7) In the field for 1) Options "Gadget URL", paste the URL
- 8) Pick your width and Generate the code and put it in your website.
- 9) You're done! Less than 10 steps and you have the power of OpenSocial Apps!
