Progressive Education and Career Development for Health Care and Emergency Service Providers

We provided continuing education training and recertification classes for firefighters, Paramedics, Nurses, Physicians, and other allied health professionals. We understand that obtaining and maintaining various required professional certifications can sometimes be difficult with increasingly busy work and personal schedules. This is why we have strived to make our classes convenient for the busy professional.

We offer a wide variety of classes for the professionals and organizations. CPR (Cardio Pulmonary Resuscitation), AED (Automated External Defibrillator), First Aid, OSHA (Occupational Safety & Health Administration) (compliance training in Bloodborne Pathogens) Estas Clases Las Ofrecemos En Espanol OSHA is the main federal agency charged with the enforcement of safety and health legislation.

Health care professional also need to look no further we offer BLS for Healthcare Provider, ACLS (Advanced Cardiac Life Support) PALS (Pediatric Advanced Cardiac Life Support) ITLS (International Trauma Life Support). To offer these advanced courses we utilize the latest in Audio-Visual technology including PowerPoint Presentations, computerized interactive scenarios and extensive hands on training utilizing state-of-the-art equipment, from such manufacturers as, Phillips, Laerdal, Ambu, and more.

Professional Firefighters can obtain recertification classes sanctioned by the Florida State Fire College. We also provide one-on-one or group comprehensive exam preparation sessions guaranteed to provide positive results.

All our instructors are State of Florida Fire, American Heart Association, and American Safety & Health Institute Certified Instructors. Our instructors range from Paramedics, Firefighters, Nurses, and Police Officers dedicated to providing our clients with the most comprehensive education in a non stress environment. The instructors pride themselves in guaranteeing student success, to one-on-one sessions to after class coaching and mentoring. Read what some of our students are saying!

In addition to serving healthcare professionals, we provide compliance training to small businesses and large corporations such as, preschools, daycares, boat captains, and many more In CPR/AED, OSHA compliance for local, state, and federal requirements. These training programs will minimize your risk to life and property.

We also provide consulting and assistance in forming Exposure Control and Emergency Action Plan (EAP) tailored to your organization.
