Collier County

October 26, 2009 8:22 AM

Clinic Locations:

Collier County received 1900 doses of H1N1 Swine Flu vaccine on Tuesday, October 13th. Although this initial shipment is limited, weekly shipments are expected with the anticipation all Collier residents and visitors will have an opportunity to obtain the vaccine in the coming months.

To utilize the first shipments of vaccine most effectively and give it to high risk individuals* who can receive FluMist, it will be administered as follows:

The Health Department will give begin vaccinating children (with signed parental consent) in daycare centers and schools

(for more information regarding the school effort please go to <http://www.collierschools.com/parents/swineflu.asp>

To local pediatricians who have ordered the vaccine and offered to give the vaccine to their highest risk patients.

To healthcare and emergency services personnel who have direct patient contact.

The Health Department is following the Centers for Disease Control and Prevention guidelines to ensure those at the highest risk for H1N1 Swine flu and its related complications are vaccinated first. The first priority group includes:

1. pregnant women,
2. persons who live with or provide care for infants aged
