

KML (thirty-nine total) for Collier County Business Directory. Naples, Marco Island, etc. Google Maps, Earth, etc.

[Register with us in one easy step!](#)

KMLs / Google Maps entries are broken up into smaller files, under 1000 entries each (not as large as before)

Naples (Fla.) businesses - all listed businesses that I could find in Collier County, plus other things like physicians, schools, etc.

Formatting the files for these maps are the results of a weeks' worth of work. The collecting of data is from almost a 2 year span (2007-present)

It's been validated in Google Maps and Google Earth and is a Geositemap.

Do not make any changes to the files. Retain the link to the original source.

The results may not be pretty, but they work.

Added November 3, 2009: [Naples Florida Businesses KML Network Link \(KML Format\)](#) Businesses here have been geocoded, and if you have Google Earth installed, it will happily launch in Google Earth

Udut, KennethFixed the links to the kml on google maps - they should work now. on May 11 2009 Udut, KennethMan, I hope folks (and Google too) appreciate this effort, or that it becomes useful to the web at large. This stuff is a LOT of work, and with so much local information MISSING from the Internet at large, I am really trying to do my part to help... on May 11 2009 Udut, KennethFinally, I got around to finishing this up. I added 31-39, adding an additional 5,600 business addresses which makes a pretty complete picture of Naples Owned businesses through May 1st, 2009. There are a few hundred more businesses that have opened or changed hands since then, but this should be good enough for the internet at large. on June 7 2009 Udut,

Kennethwhew - the number of requests for these files is absolutely astounding! I'm grateful to help. on Jan. 22 2010
