My Memoir

Here we go! Introducing you to my popular memoir.

MOVE OVER GIRLS HERE COMES A REAL WOMAN

A fun loving passionate woman named Carol, begins a blazing romance with the dashing Xavier. This innovative late 60 year old interracial couple embark on a five week action packed road trip in her hot yellow mustang convertible from Miami to Montreal.

When the road turns and Xavier walks out on her, obsession drives author Carol Sue Gershman to put her passion and pain into this racy, sexy, inspiring memoir. Her flashbacks reveal all and her goal is to shock him with their story and get him back!

Throughout this poignant and riotous romp, Carol lives agelessly and passionately.

_Don_t pay any attention to your age, she says . Keep your spirit young and alive and just see where YOUR road takes you_

She further assures the younger generations that sex is here to stay and only gets better proving that FIFTY IS FABULOUS, SIXTY IS SENSATIONAL AND SEVENTY SIZZLES!
