

# FITZGERALD

## Construction Services, LLC

Your Custom Building & Remodeling Specialists

### Remodeling & Repair

We specialize in remodeling. We will custom design your project to meet your needs and your budget and see your project through from design to completion.

### Additions

Outgrowing your home? Need more space? Allow us to add an addition or a second floor to your home. This will add the extra space you need while adding value and beauty to your home.

### Custom Homes

We will build your dream home on your lot. We will work with you from pre-construction and custom design through completion. We will strive to design and build the perfect home that suits your needs and your budget. Our goal is to produce a top quality home within budget and on schedule with customer satisfaction being our main objective.

### Green Building

 Green building designs can be incorporated into any project you may have. A green home is better for your family's health, cost less to operate because it is more efficient and it also has fewer negative impacts on our environment.
